

I. AMENDMENTS TO THE CLAIMS

In response to the above-referenced Office Action, please amend the application in the claims as follows (support for the following claim amendments is found throughout the application specification):

- 1 1. (Currently Amended) A portable climate control dwelling comprising:
2 a collapsible structure defining an enclosure, the collapsible structure
3 interchangeably transformable between a first storage configuration and a second
4 inhabitable configuration defining a predetermined shape and further having a portion
5 defining a resealable climate control unit receiving aperture; and
6 a climate control unit reversibly attachable with the collapsible structure for use in
7 its second inhabitable configuration; whereby the climate control unit conditions the air
8 within the enclosure of the collapsible structure, such that retention of the predetermined
9 shape of the second inhabitable configuration is independent of the climate control unit.
- 1 2. (Original) The portable climate control dwelling of claim 1, wherein the air is cooled.
- 1 3. (Original) The portable climate control dwelling of claim 1, wherein the air is heated.
- 1 4. (Original) The portable climate control dwelling of claim 1, wherein the collapsible
2 structure defining the climate control unit receiving aperture comprises an elastic member for
3 engaging the climate control unit to form a weather resistant barrier between the exterior and
4 interior of the dwelling.
- 1 5. (Original) The portable climate control dwelling of claim 1, wherein the dwelling if
2 formed from a material selected from the group consisting of polymer, vinyl, nylon, cotton, leather,
3 or combinations thereof.
- 1 6. (Original) The climate control dwelling of claim 5, wherein the dwelling is ballistic
2 nylon.
- 1 7. (Original) A portable climate control unit carrier comprising a plurality of straps,
2 configurable about the exterior of a climate control unit.
- 1 8. (Original) The portable climate control unit carrier of claim 1, wherein the dwelling if
2 formed from a material selected from the group consisting of polymer, vinyl, nylon, cotton, leather,
3 or combinations thereof.
- 1 9. (Original) The portable climate control unit carrier of claim 8, wherein the dwelling is
2 a ballistic nylon.

- 1 10. (Currently Amended) An tent adapter, comprising:
2 a flange having a front and a back, at least a portion of the back affixable to a
3 tent;
4 a boot having first and second ends defining a longitudinally extending aperture
5 there between, the boot affixable at the first end perpendicularly to the flange ~~to~~ for
6 affixing a climate control unit to a tent.
- 1 11. (Original) The adapter of claim 10, wherein the second end of the boot has an
2 elastic edge.
- 1 12. (Original) The adapter of claim 10, wherein the second end has a closure for closing
2 the aperture at the second end.
- 1 13. (Original) The adaptor of claim 10, wherein the adapter formed from a material
2 selected from the group consisting of polymer, vinyl, nylon, cotton, leather, or combinations
3 thereof.
- 1 14. (Original) The adapter claim 13, wherein the adapter is a ballistic nylon.
- 1 15. (Currently Amended) A kit comprising a collapsible structure defining an
2 enclosure, the collapsible structure interchangeably transformable between a first storage
3 configuration and a second inhabitable configuration and further having a portion defining a
4 pliant, resealable climate control unit-receiving aperture, wherein said second inhabitable
5 configuration may be established and/or retained at the predetermined shape in the absence or
6 presence of a climate control unit.
- 1 16. (Original) The kit of claim 15, further comprising a climate control unit.
- 1 17. (Original) The kit of claim 15, further comprising a climate control unit carrier.
- 1 18. (Original) The kit of claim 17, wherein the climate unit is an air conditioner.
- 1 19. (Original) The kit of claim 17, wherein the climate control unit is a heater.
- 1 20. (Original) The kit of claim 15, further comprising an adjustable stand for holding a
2 climate control unit at a predetermined distance in relation to the dwelling.
